

INDUSTRIAL SERIES

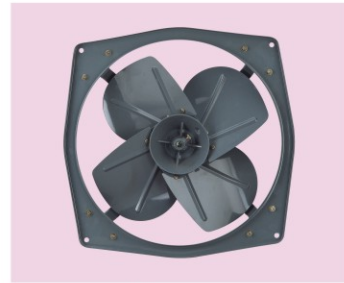

■ PRODUCT

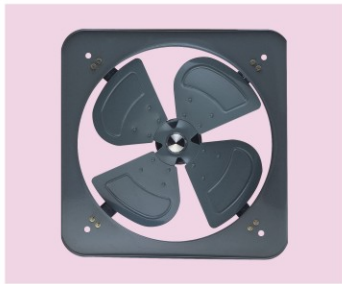

IAE7-series

IAE6-series

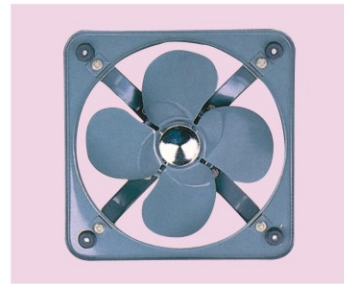

IAE4-series

IAEL-series

IAE3-series

IAE1-series

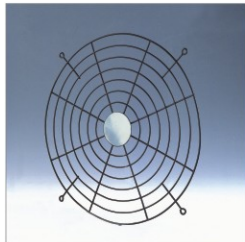

■ DESCRIPTION

- Wide range of air volume performance and sizes for different application requirement

FRONT & BACK GRILLES

- hi grade iron grilles with epoxy paint finish
- best safety operation

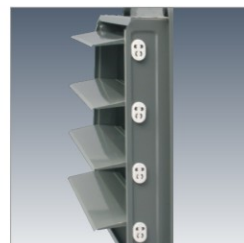

MOTORS

- asynchronous induction type
- built-in thermal fuse protection
- IP 44 protection

IMPELLERS

- hi grade rolled sheet steel with epoxy paint finish
- well balanced design

IAE-3, IAEL-SH SHUTTER SERIES

■ APPLICATIONS

- Suitable for many ventilation applications where extraction and supply of air is needed.
- IAE1 and IAE3 series suitable for application with small air volume at low pressure requirement including small restaurant, cafe, bar, commercial premise and workshop, etc.
- IAE4, 6, 7, IAEL series suitable for application with large air volume requirement in large scale factory, workshop, commercial / industrial drying room, agricultural extract & supply, greenhouse, etc.
